Guidelines for Medications at School

- **All medication must be in the container in which it was dispensed** by the prescribing physician, healthcare provider or licensed pharmacist.
- Any student needing to take medication during school hours **must have a signed Medication Authorization Form** from the parent or guardian and a properly completed healthcare provider's statement.
- School personnel may not give over-the-counter medications unless prescribed by a healthcare provider. A Medication Authorization Form must be completed.
- Any changes in medication must also be in writing from the healthcare provider.
- The authorization by the healthcare provider can be on a prescription pad or other form, as long as it has all the information required on the Medication Authorization Form. It can be attached to the form signed by the parent.
- The Medication Authorization Form must be renewed each year or if the medication or dosage is changed.
- Medications ordered three times a day or less, unless a time is specified, may not need to be taken at school. The medication should be given before school, after school, and at bedtime.
